

SUP Shack Guam:

My retail services are done online and when products arrive on island from our freight forwarder, customers can pick up their orders at our store or we can do home delivery and face masks will be required. If customers opt to do a store pick-up, we will bring their order out to their vehicle so there is no entering the store. If customers opt for home delivery we will do curbside delivery.

All payment transactions are done electronically so there is no physical interaction.
